MELANIE

People tell me I ought to go into public affairs because I'm so friendly and likeable. I say I got enough affairs going already. I just can't keep my hands off men. They all look so good and feel so good. If I had a job out in the public eye, I'd probably be seducing rich guys and politicians as well. Believe me, I don't need anymore guys. They're coming out my ears. Take last week. I was out at the nude beach and I wasn't even nude, but I did have my top off. There I was, eyes closed, catching some rays, when a dude comes up and puts his lips right

on
my nipple That
woke me up quick Turns out I knew
him from school, so I cooled off my anger and invited
him to sit down.

I told him he had to take off appropriate clothing to match me or I
was going to put my bikini bra back on, so he took off
his shorts He had a bit of a hard-on, but on
him it looked good. It made my nipples
hard to look at it

I said, you know, it's kinda public out
here Maybe we should find a place He
offered me his van It was cool and dark in
there and he had pillows all over --- very
comfy So we got naked and fooled around. I
grabbed hold of that gorgeous cock and pigged
out on it

He couldn't get enough of my tits. He kept
saying, I'm so lucky I got these great tits
He loved my shaved pussy too He wanted to
eat me all day and I wanted to screw

I think they're pretty nasty too I love to
show them off to men who haven't seen them yet
And that's where I got into trouble We fucked
our brains out, then got out of the van and we
ran into his buddy He buddy took one look at
both of us and knew what we'd just done and he

asked if he could have some My friend said, Ask the lady Well, who as I to
turn down seconds of a good thing I did it and I'm not ashamed. I'm proud.

"He wanted to eat me
all day and I wanted to screw."

I'm not a bad girl, just a sexy girl. I like guys. In fact, I like girls too when I'm in the right mood. What I really like is a little group action. But for some reason that's becoming unpopular just now. I shoulda been born in the sixties. I heard things were hot then.

I just never like doing what I'm told. They told me to stay out of the sun because I've got freckles. Forget it. I'll do what I please. They said no touching yourself. Hey. Masturbation is one of the purest joys of life. And of course they said, one man at a time. But have they tried two? Two is better than one. You get more hands and more hard cocks in the bargain.

Once I had these two guys who had done girls before. I swear, they had a routine worked out like Laurel and Hardy. One of them pretended to want me so bad and took me in the bedroom and got me stoned and naked and just when we were about to screw, the other one came in. Hard-on in hand and ready to go.

I should have felt flattered, I guess, but I got real confused. I was

so out of it, I couldn't figure out what to do next. But they knew. Like I said, they had this all worked out. One put his cock in my mouth and the other ate my pussy. Now that was nice. If only I could figure out how to get this effect with just one man.

They were fun to have sex with, but they only did it a few times with me before they went on to get the next girl. It seems the

shock value got them off, not the sex. So since I wasn't shockable and I really loved it all, I was probably boring to them. Not enough of a challenge.

It was shortly after that I got into girls with dildos. A girl with a dildo is dangerous. She can do anything a man can do and better and she always remembers to call you the next day!

"I like girls too
when I'm in the
right mood."

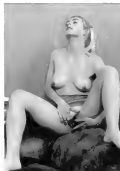

"What I really
like is a little
group action."

Bethany

I've always been a large girl. I'm larger than my sisters and one of my brothers. I'm larger than my parents. I'm glad I wasn't born in Taiwan or somewhere where all the men are short because I would really feel like a freak. But the community where I grew up had lots of tall people. We bred them there.

I've tried cosmetics and tricky clothing hints you get in Women's Magazines, but once I'm naked, what you see is what you gotta deal with. So I'm big, so I make

the most of it. What do I do? I get myself tall men or short men who like tall women.

A lot of short men like to date a tall woman. I'll tell you why. When they walk into a room, nobody notices them. When they walk in with me, everyone notices.

I like to wrap my legs around a little guy. I like to look down and see his little face bobbing in my snatch. When a short man fucks me, his nose comes right to my tits and that's where I like it. Then I can be sucked and fucked at the same time!

"I like to look down and see his little face
bobbing in my snatch."

Selma

When this guy said lemme take your picture five years ago, I never thought it would lead to a career in porno magazines, yet here I am.

I can't say I've met any cool dudes either. Contrary to rumor and bad press, the photographers are not hunks and the editors are not always horny. The last guy who took my picture was my grandfather's age.

So I gotta get my kicks on the streets. I like to pick up strangers. Not for money. I got plenty of money. I like strangers because there's this thrill involved. A thrill of

the unknown, of the danger.

I've never had a bad trip with a stranger. And the only sexually nasty thing that ever happened to me, happened with a guy I knew. But there's a risk, and excitement, in taking home a big hunky guy you never met before. You don't know where he's been, what he's into, who he's had.

I wouldn't recommend it to all girls though. I'm one tough broad and I can hold my own with any man. I even know karate. Let's hope I never need it.
